**Important Change in Registration Process:** Beginning in January 2018, all event registration deadlines will be firm. If registrations are not received by the final registration deadline, attendance at the event will not be possible. This is a change from previous years and is made at Dileepji's request due to the tremendous stress and expense that result from late registrations or failure to register. *Please make note of all registration deadlines to avoid any disappointment.*

*All events details are subject to change.*
